Gate & Panel Details

Pelican Panels do not have a "standard" range.

All products are made to measure so we can match or change any design to suit your requirements. Extra Rails or Extra rows of spears or circles can be added. We often manufacture with an extra row of uprights across the bottom of panels or gates to keep small dogs in. Whatever your needs may be the team at Pelican Panels can manufacture to suit.

All designs are manufactured to maintain structural integrity, we do not scrimp on Size, Thickness or Quality of materials.

Aluminium Construction

- 100x50x3.0mm Rails & Gate Stiles

Suitable Uses

- Rural Properties
- Boundary Fencing
- Entry Gates

All designs shown can be manufactured into Pedestrian, Sliding & Double Entry Gates with full automation.

Check for underground services - Gas, Electricity & Telecommunications. Dial 1100 for details.

Allow 24 hours for concrete in posts to set before installing Panels or Gates.

Onsite cutting down of any panels or posts with a hacksaw or grinder should not be required. All orders are made to measure.

All of our Tubular Fencing is available in any Dulux Powdercoat colour. See our website for the full range.
