Automation Checklist Page 2 – Accessories

DRIVEWAY SLANT

Does your driveway slant side-to-side at the gate?

No

Yes What is the distance shown below?

Accessories	Comments:
Number of Remote Controls	
	2 Remotes supplied with each unit
Emergency Photo Cell Safety Beams (highly recommended)	
Yes No	Photocells across gateway will stop the gate closing if a pedestrian or car is in the gateway.
Piggyback a Garage Door	
Yes No	Connect an existing garage door to the new gate remote, so only one control is needed.
Keypad	
Yes No	Keypad for access without remote
Battery Backup	
	Emergency power backup in the event of a power failure
Swipe Tag / Card	
Yes No Qty of Tags / Cards	Multiple User Access.
Fast Cog	
Yes No	Gate with fast cog will open faster, good for busy roads.
